

FResenius Kabi Advanced Nutrition Course FRANC Asia – Paediatrics 2021

Providing Optimal Nutrition Care
for Growth and Development

26 & 28 October 2021
18:00–19:30 HKT

It is our distinct privilege to extend a warm welcome to you to attend and participate in the **FResenius Kabi Advanced Nutrition Course Asia – Paediatrics 2021 (FRANC Asia– Paediatrics 2021)**. This virtual symposium will be held on 26th October & 28th October 2021 from 18:00–19:30 Hong Kong time for each day.

FRANC Asia – Paediatrics 2021 with a theme of **Providing Optimal Nutrition Care for Growth and Development** will focus on key topics such as the nutritional management of preterms, very low birth weight (VLBW) neonates as well as the optimal development and minimization of complications during long-term parenteral nutrition (PN) for short bowel syndrome. FRANC Asia – Paediatrics 2021 will be graced by well-known international faculty who are experts in the fields of paediatric nutrition.
